

Usage of Logo

EXCLUSION ZONE

We've defined an exclusion zone that stops other graphic elements interfering with the CSO logotype. The minimum space between the logo and other element is the 2/3 of the CSO logo's height all around.

MINIMUM SIZE

The logotype should never be too small to read. We've set a minimum size of 20mm.

DON'TS

The CSO logotype operates around rules of common sense. If you feel, what you have done, doesn't make sense or looks strange then it is probably wrong. To help we have highlighted things that should never be done to our logotype. We know you wouldn't do anything like this but still here they are just in case!

The logotype has a graphic element or logo within the exclusion zone
