CSO™   Certified Safety Officer - (CSO)

Overview

Certified Safety Officer (CSO) is a comprehensive safety program specially designed for anyone involved in any industry such as Foremen, Superintendents, Project Managers, Safety Coordinators and Safety Advisor and Craftspeople who have responsibilities to maintain safe conditions and practices on job sites. These individuals may not have safety as a primary duty, but their knowledge of safety standards and practices ensure safer worksites.

Overview of Certification Process

Apply Through ATP → Check Eligibility → Purchase Exam → Appear for Exam → Pass → Receive Certification → Maintain Certification → Recertification after 5 years

Fail → Pay Exam Fee
